### **Biology Genetic Engineering Multiple Choice**

Multiple Choice Questions for OCR A level Biology. Designed for use with Zipgrade but can be used just as MCQs where students highlight their answer. Ask students why other answers are incorrect....

### **Multiple Choice Questions for OCR A level Biology by ...**

Genetic engineering is a process that alters the genetic structure of an organism by either removing or introducing DNA. Unlike traditional animal and plant breeding, which involves doing multiple crosses and then selecting for the organism with the desired phenotype, genetic engineering takes the gene directly from one organism and inserts it in the other.

### **Genetic engineering - Wikipedia**

Genetic engineering as the direct transfer of DNA from one organism to another was first accomplished by Herbert Boyer and Stanley Cohen in 1972. It was the result of a series of advancements in techniques that allowed the direct modification of the genome. Important advances included the discovery of restriction enzymes and DNA ligases, the ability to design plasmids and technologies like ...
