Quantum mechanics (QM; also known as quantum physics, quantum theory, the wave mechanical model, or matrix mechanics), including quantum field theory, is a fundamental theory in physics which describes nature at the smallest scales of energy levels of atoms and subatomic particles.. Classical physics, the physics existing before quantum mechanics, describes nature at ordinary (macroscopic) scale.

A coilgun or Gauss rifle is a type of projectile accelerator consisting of one or more coils used as electromagnets in the configuration of a linear motor that accelerate a ferromagnetic or conducting projectile to high velocity. In almost all coilgun configurations, the coils and the gun barrel are arranged on a common axis. It is not a rifle as the barrel is not rifled.

For those of us who understand why the United States faked the moon landing of 1969 and why the Chinese and the Japanese and other nations fake moon and space missions today, it is very disconcerting to see an explosion in the bubble of fabricated reality as grandiose and egregiously brain damaging as the wealth gobbling fakery of a possible United States Space Force.
