"I know that most men, including those at ease with problems of the greatest complexity, can seldom accept even the simplest and most obvious truth if it be such as would oblige them to admit the falsity of conclusions which they have delighted in explaining to colleagues, which they have proudly taught to others, and which they have woven, thread by thread, into the fabric of their lives."

Errors and "science myths" in K-6 Science Textbooks

Topics relating to application security and attacks against software. Please don't use this tag alone, that results in ambiguity. If your question is not about a specific programming problem, please consider instead asking it at Information Security SE: <https://security.stackexchange.com>

The ACT test is a curriculum-based education and career planning tool for high school students that assesses the mastery of college readiness standards

The ACT Test for Students | ACT

Paradigm comes from Greek παράδειγμα (paradeigma), "pattern, example, sample" from the verb παραδείκνυμι (paradeiknumi), "exhibit, represent, expose" and that from παρά (para), "beside, beyond" and δείκνυμι (deiknumi), "to show, to point out".. In rhetoric, paradeigma is known as a type of proof. The purpose of paradeigma is to provide an audience with an ...

An inertial frame of reference in classical physics and special relativity is a frame of reference in which a body with zero net force acting upon it is not accelerating; that is, such a body is at rest or

is moving at a constant speed in a straight line. In analytical terms, it is a frame of reference that describes time and space homogeneously, isotropically, and in a time-independent manner.

Inertial frame of reference - Wikipedia

was born in Dublin on 19 April 1826. His father, Henry Higinbotham, was a merchant at Dublin who married Sarah, daughter of Joseph Wilson, a man of Scotch ancestry who had gone to America and became an American citizen after the War of Independence.

A fractal is an object or quantity that displays self-similarity, in a somewhat technical sense, on all scales. The object need not exhibit exactly the same structure at all scales, but the same "type" of structures must appear on all scales. A plot of the quantity on a log-log graph versus scale then gives a straight line, whose slope is said to be the fractal dimension.
