When Apple preannounced their Apple Watch, some naysayers complained that the watch doesn't work as a standalone device. It requires an iPhone to be fully functional. But those critics should be careful what they wish for. There are competing smartwatches that can accept a SIM card and access the Internet directly via a cellular carrier, but those wearables may require a data contract, and ...

The U.S. Census Bureau says there are 83.1 million people between the ages of 18 to 34 in the nation. Studies show the average Millennial spends 18 hours per day using any time of digital media. And, 90 percent of young adults use social media, which is up from 12 percent in 2005, the Pew Research Center reports. Although research in brain development among Millennials is fairly new, some ...
