Activities. In addition to a wide range of adult and children's services for autistic people located across England, Scotland, Northern Ireland and Wales, the charity has an Autism Helpline open 5 days a week, a range of products for professionals working with autistics and a campaigning function.

### **National Autistic Society - Wikipedia**

Autistic Burnout is exactly that; The shutting down of mind and body. If you've ever had a problem with a computer and it's had to go into safe mode - that would describe what happens to the brain - it runs on limited function, not all services are available - it's access to the Internet (my Rolodex, as I described in The inside of Autism: The world inside my head) denied and unable to connect.

### **An Autistic Burnout - The Autistic Advocate**

Autism is a developmental disorder characterized by difficulties with social interaction and communication, and by restricted and repetitive behavior. Parents usually notice signs during the first three years of their child's life. These signs often develop gradually, though some children with autism reach their developmental milestones at a normal pace before worsening.
